

Miriam Smith, Pathwork Helper

I am currently an Educational Therapist, a Certified Pranic Healer and Pranic Healing Teacher, and a Pathwork Helper. I graduated from the 5 year PTP, Advanced Pathwork Study, and Helper Training through the MAP Pathwork at Sevenoaks, VA. My work combines modalities geared toward clearing confusion, self- destruction, distortion, and obstacles, which block the experience of self-fulfillment and joy.

As an Educational Therapist, I have worked closely with individuals seeking greater competency. I love this work and have had the honor of being involved with courageous souls developing self-awareness and strategies for independence and success.

As a trained energy healer and an intuitive, I help my clients explore what precipitates emotional or physical injuries, or chronic health imbalances that require and resist healing. What part of us accepts and then rejects healings?

Pathwork provides the “glue” that integrates the guidance for each life’s experience. Pathwork helps to bring awareness to soul work and create physical, emotional, mental, and spiritual health. I approach my work from a holistic perspective building toward a strong foundation. I believe that the Universe is totally efficient in that nothing is wasted, not even trauma. To quote Ram Dass, “We are all walking each other home.”

I serve on the MAP Pathwork Council.
